

Risk Management Using ISO 14971 Training Course

COURSE OVERVIEW

Having an effective risk management system is now a key concern coming under increasing scrutiny from regulatory bodies.

This practical and interactive one day course will give you the skills and tools to perform risk assessments and manage product and process risks using ISO 14971:2007.

YOU WILL LEARN...

- The secrets of what your notified body is looking for in a risk management system.
- How to manage risk and the product lifecycle using ISO 14971:2007.
- Why a Failure Mode Effect Analysis is not enough to pass an audit.
- The key links between product design and controlling your processes.
- Tool box to effectively manage and control risk.
- An understanding of how ISO 13485 and ISO 14971 link together.

Your 100% money back guarantee: We offer the most unique and interactive courses around so if we don't deliver the course learning objectives, provide you with an expert trainer or if you are just not happy with the training delivered, we will refund you course fee and offer you a **FREE** training course.

WHY CHOOSE QCS FOR TRAINING?

Peace of mind that your qualification is valid: As an IRCA approved organisation, our courses, our company and our trainers undergo an intensive inspection and assessment every year.

We make sure you don't fall asleep: We have invested heavily in our courses to make them interactive. Simply put, it is our belief that if we keep you involved in learning you will learn more and be able to use more back at work.

Our trainers still practice what they preach: Yes we have highly qualified industry experts to train our courses but more importantly all our trainers still actively work with a range of companies and can pass this experience on to you.

"QCS has provided us with a flexible service. We have used standard training and bespoke training packages. QCS have managed to instil a confidence in our audit team that was lacking. Our management systems seem less challenging with the expert advice from QCS behind us"
