

Introduction to ISO Standards

1 Day Training Courses

COURSE OVERVIEW

ISO 9001, ISO 14001 and OHSAS 18001 will reduce your business risk, and give you a competitive advantage.

These practical and interactive 1 day courses will help you to understand the key requirements of each standard, what an effective Management System should look like, and how this applies to your organisation.

YOU WILL LEARN...

- How to cut through the 'ISO speak' to give you a practical understanding of the real business benefits of each ISO standard.
- Destroying the myths of system documentation — what you actually need to run your system.
- How to implement an ISO system into your business, not your business into an ISO system.
- How your ISO system will be assessed externally.
- Understanding your legal and other requirements and how this applies to an ISO system.

WHY CHOOSE QCS FOR TRAINING?

Peace of mind that your qualification is valid: As an IRCA approved organisation, our courses, our company and our trainers undergo an intensive inspection and assessment every year.

We make sure you don't fall asleep: We have invested heavily in our courses to make them interactive. Simply put, it is our belief that if we keep you involved in learning you will learn more and be able to use more back at work.

Our trainers still practice what they preach: Yes we have highly qualified industry experts to train our courses but more importantly all our trainers still actively work with a range of companies and can pass this experience on to you.
